

**LAS GALLINAS CREEK  
CONTINUING AUTHORITY, SECTION 205**

PROJECT LOCATION AND DESCRIPTION: Las Gallinas Creek is located east of Highway 101 in the Santa Venetia area of Marin County, about 10 miles north of San Francisco. Las Gallinas Creek is vulnerable to extreme high tides and heavy storm runoff and the existing levee system is approaching the end of its useful life. A Section 205 flood damage reduction study was conducted under the Continuing Authorities Program (CAP). Alternative plans to reduce potential flooding were investigated. Because the costs of each plan exceed the associated benefits, no plans can be recommended for construction and the study will be terminated.
